HVAC/AC Update:

Our HVAC Company that we have been working closely with us has provided a plan of repairs in phases for all our spaces and multiple units. Completion of our main facility repair phase will occur within the next couple of weeks. They will continue working with the replacement phase of our other areas, within that timeframe or shortly thereafter.

While we know the temperatures have risen, we appreciate your patience on this. Please contact our Membership Team if you have any further questions, thank you.

In Health,

Jerry & Sue Lynch, owners  
LCP Management
